

Scotland Malawi Partnership (SMP) & Malawi Scotland Partnership Health Forum

February 15th 2023 - 11.30am (UK time); 1.30pm (Malawi time): Duration 90mins

Co-hosted by MaSP and the SMP, and co-chaired by our respective Chairs, **Dr Ann Phoya & Professor Heather Cubie**, this event will focus on the steps being taken to tackle the worst Cholera outbreak in Malawi in two decades, with over 40,000 cases and more than 1,300 deaths. We'll hear from the Co-Chair of Malawi's Presidential Taskforce on Covid and Cholera, **Dr Wilfred Chalamira Nkhoma**.

Dr Christine Campbell & Beatrice Kabota will present on the successful Scottish Government-funded Cervical Cancer Project, Malscot. We also hope to benefit from Forum Participants' contributions on their Health links. This is a hybrid meeting held online, and in the Mandela Room, Edinburgh City Chambers. The event will be recorded and made available online.
