Case Study - Glasgow City Council

In September 2011, following the Executive Director’s visit to Malawi, the project, Malawi Leaders of Learning (MLOL), was launched.

They have successfully extended their reach through social media – Twitter (@MalawiLOL) and Facebook (Malawi Leaders of Learning). Both have been used very effectively particularly when the trips have been ongoing to relay back to family and friends and engage more people in the project.

The aim of the programme is to improve learning and teaching in Glasgow and Malawi.

“When we started we thought our aim was to improve learning and teaching in Malawi. However, as the project has progressed it has become increasingly more apparent that our project is successfully contributing to the improvement of learning and teaching in Glasgow too.”
