

## Challenges Worldwide

Challenges Worldwide has a long history of working with Malawi in a number of different areas. This includes our Capacity Building for Enterprise (CBE) project, our Capacity Building for Justice (CBJ) project, both funded by the Scottish Government, alongside our on-going health partnerships and student links through a number of UK Universities.

CBE provides world class consultancy services to Micro, Small and Medium sized Enterprises in Malawi, building the indigenous consultancy capacity and expertise in Malawi in a sustainable way. To develop the market in Malawi for consultancy service, Umodzi Consulting was established through the CBE Project and launched in 2012. A Chichewa term meaning partnership, the name Umodzi perfectly embodies its approach to its clients and reflects Challenges own practice of developing partnerships for sustainable and long lasting development.

Fourteen practicing Malawian consultants have been up-skilled through training and over 500 Malawian businesses have now been supported through business diagnostics, consultancy inputs and coaching seminars.
